

## Dr. Victoria A. Stuart, Ph.D.

---

Vancouver, British Columbia, Canada  
Victoria.A.Stuart@gmail.com

### PERSONAL STATEMENT

I envision innovative, impactful solutions to scientific and societal issues through the application of science and technology to the betterment of human health.

I accomplish this through

(i) the practical advancement of knowledge in functional genomics (the phenotypic and functional expression of the information contained within genomes), and

(ii) knowledge discovery, through natural language processing and machine learning approaches applied to the biomedical domain.

These efforts build on my thorough grounding in biochemistry (B.Sc.), environmental health (M.Sc.), molecular genetics (Ph.D), and post-doctoral experience in informatics and knowledge discovery.

I am especially motivated by information retrieval/extraction, the construction and leveraging of knowledge stores and graphical models, and the application of that knowledge to real-world problems including: molecular biology; cellular signalling; cancer genomics; personalized medicine; ...

The union of my core domains (genomics; programming; natural language processing; machine learning; bioinformatics) enables a better understanding of implicit and explicit relationships and interactions, facilitating translational knowledge discovery.

### EDUCATION

**Ph.D., Biology** Jun 2000

University of Victoria, Victoria, British Columbia, Canada

Specialization: Molecular Genetics: Mechanisms of Mutagenesis & Carcinogenesis

Dissertation: "Influences of Ageing and Diet on Mutational Frequency and Specificity in Big Blue<sup>®</sup> *lacI* Transgenic Rodents"

**M.Sc., Occupational Hygiene** May 1995

Occupational Hygiene Programme

[now the School of Environmental Health]

University of British Columbia, Vancouver, British Columbia, Canada

Specialization: Molecular Epidemiology

Thesis: "Genotoxicity of Captan Measured in the Comet Assay"

**B.Sc. with Honours, Biochemistry** Oct 1983

Dalhousie University, Halifax, Nova Scotia, Canada

Minor: Chemistry

Honours Thesis: "Dimroth Rearrangement of the Oligodeoxyribonucleotide Synthesis Precursor N<sup>6</sup>-Benzoyl-Deoxyadenosine"

## CURRENT POSITION

### Scientific Consultant

Jun 2009 - Present

I have been self-employed since June 2009 as a Scientific Consultant, providing scientific expertise in molecular genetics, genomics, molecular biology, life sciences, bioinformatics and scientific review. During this time I was subcontracted to Battelle Memorial Institute, Chapel Hill, N.C., providing scientific expertise and review for the U.S. Army Research Office (ARO; Durham, N.C.), and the U.S. Army Center for Environmental Health Research (USACEHR; Washington, D.C.).

## RECENT AFFILIATIONS

### Research Scientist

May 2001 - Nov 2008

Laboratory of Molecular Genetics

[*now the Genome Integrity and Structural Biology Laboratory*]

National Institute of Environmental Health Sciences

P.O. Box 12233, MD E3-01, Research Triangle Park, North Carolina 27709.

Throughout this period support was provided by the **U.S. Army Research Office** (Research Triangle Park, Durham, North Carolina), through:

- **Research Associateship Award** May 2005 - Nov 2008  
National Academy of Sciences, Washington, D.C.
- **Research Assistant** May 2002 - Apr 2005  
Department of Molecular Genetics and Microbiology  
Duke University Medical Center, Durham, North Carolina
- **International Research Scholar** May 2001 - Apr 2002  
Department of Microbiology  
North Carolina State University, Raleigh, North Carolina

## EXPERIENCE & SKILLS

With formal training and comprehensive research experience in genomics and molecular genetics, I possess *supra* Ph.D.-level domain expertise in biology, biochemistry, bioinformatics, cancer biology and genomics, cellular signaling/metabolic pathways, DNA metabolism, etc.

### Molecular Biology:

- all basic: cloning...
- transgenic rodent models
- mitochondrial genetics
- DNA sequencing, analysis

### Microbiology:

- yeast genetics
- bacterial genetics
- strain construction
- mutational assays

### Genetics/Genomics:

- functional genomics
- molecular genetics
- oncogenomics
- pathways/networks

Supplementing this experience is my acquisition of more recent training/expertise in programming and bioinformatics. My more recent work (Jan 2014 - present) predominantly revolves around:

### Machine Learning:

- computer vision (classification; captioning; ...)
- vector space models
- NLP

### Information:

- retrieval
- extraction
- storage (RDB; ...)
- processing, relationships

### Knowledge:

- knowledge stores
- graphical graphs (Neo4j)
- knowledge discovery (Cypher; ...)

**Programmatic:** command-line: bash scripts, ...; Python; R; ML (TensorFlow/Caffe/...)

**Platforms:** Apache Solr; PostgreSQL; Neo4J; various IDE; virtual environments

**Operating Systems:** Linux (super-user: compiling; debugging; ...)

**Community:** StackOverflow: <https://stackoverflow.com/users/1904943/victoria-stuart>  
 GitHub: <https://github.com/victoriastuart>  
 Gists: <https://gist.github.com/victoriastuart>

## LEADERSHIP & SCIENTIFIC SERVICE

Genetics and Environmental Mutagenesis Society, Durham N.C. 2002 - 2007

- **President** 2006 - 2007
- **President-Elect** 2005 - 2006
- **Councilor** 2002 - 200

**Founder, AI-SIG** 2014  
 Artificial Intelligence & Machine Learning Special Interest Group

**Peer Review, Academic Journals:** Acta Biochimica et Biophysica Sinica; Archives of Biochemistry and Biophysics; Cancer Letters; Environmental and Molecular Mutagenesis; Eukaryotic Cell; Functional and Integrative Genomics; Genetics; Molecular and Cellular Biology; Mutagenesis; Mutation Research; NIEHS internal reviews; Proceedings of the National Academy of Sciences of the United States of America

**Scientific Review:** Expertise in peer review of scientific research proposals: hundreds (>230) genetics, genomics and life sciences proposals reviewed, ranging from US\$50K - US\$16M.

**Project Leader** 2000 – 2001  
 Supervision of graduate students in: Individual Susceptibility Group, Centre for Environmental Health, Department of Biology, University of Victoria

### Leadership - Extracurricular:

- **President** 1985 – 1986  
 Phi Kappa Pi Fraternity, Dalhousie University, Halifax, Nova Scotia, Canada
- **Founder** April 2008  
 Durham Gender Alliance, Durham, N.C. USA  
<http://groups.yahoo.com/group/durhamgenderalliance>
- **Chair** Feb 2009 - Jun 2009  
 Trans Alliance Society, Vancouver, B.C.

## TEACHING & MENTORSHIP

### Teaching:

- Co-Lecturer Spring 2001; Spring 2000  
 Biology 437/550E, DNA Repair and Mutagenesis, University of Victoria
- Co-Lecturer & Course Coordinator /Administrator Winter 2000  
 Biology 439/550E, Molecular Epidemiology, University of Victoria
- Supervisor 1997 - 2001  
 Supervision & training of undergraduate summer students & technicians  
 Department of Biology, University of Victoria
- Laboratory Instructor 1983  
 Biochemistry Laboratory, Dalhousie University

**Supervision:** undergraduate students and technical staff (various)

**Mentor, “Women in Science“** 2014 - present  
 University of British Columbia: <http://ubcwomeninscience.wordpress.com>

	<b>Mentor, “Women in Science and Engineering:“</b> University of British Columbia: Annual WiSE event	2012 - 2014
